- Continuous learner

PROJECTS

Personal portfolio website (using HTML, CSS, JavaScript)
My Repo link: *https://github.com/bhagyaunnikrishnan/portfolio*
My website link: *bhagyaunnikrishnan.in*

AIDCAM
A object detection model made using latest YoloV8 by ultralytics capable of detecting road accidents and alert the responsible authorities. The sample website is made using Django and for alerting messages Twilio is used.

Grocery Store Management System
A store management system created for my college project using Django and sqlite3 as database.

Calculator
A simple Scientific Calculator in Python using Tkinter.

CSC-CENTER
This is website that I have created for my own Digital Seva Centre using html, CSS, JS and Bootstrap (https://bhagyaunnikrishnan.github.io/CSC-CENTER/)
